Location

Melter lies right in the heart of the historic Old Town of Nuremberg. The Main Station is just five minutes' walk away, and if you're driving there's a car park available nearby.

From the outside you'll see that we aim to preserve the city's charm, character and atmosphere in our house too. The original listed sandstone façade rises impressively from the middle of the pedestrian precinct. In the entrance lobby you'll pass floors and walls of shimmering marble.

A NEIGHBORHOOD HOTEL

NÜRNBERG

Simply Unique

History meets the future in a very unique way in Nuremberg. At the foot of the Kaiserburg beats the pulsating heart of a metropolitan region that's economically strong, scientifically innovative, traditional to its core, yet culturally diverse. Every year, Klassik Open Air attracts an audience of some 160,000 to the Luitpoldhain, Europe's greenest concert hall. The Blue Night, the Meeting of the Bards and the world famous Christmas Market are other great highlights of this friendly, cosmopolitan city that's intensely relaxed about its place in the world.
